

## Deep Learning

- **Character education** — honesty, self-regulation and responsibility, perseverance, empathy for contributing to the safety and benefit of others, self-confidence, personal health and well-being, career and life skills.
- **Citizenship** — global knowledge, sensitivity to and respect for other cultures, active involvement in addressing issues of human and environmental sustainability.
- **Communication** — communicate effectively orally, in writing and with a variety of digital tools; listening skills.
- **Critical thinking and problem solving** — think critically to design and manage projects, solve problems, make effective decisions using a variety of digital tools and resources.
- **Collaboration** — work in teams, learn from and contribute to the learning of others, social networking skills, empathy in working with diverse others.
- **Creativity and imagination** — economic and social entrepreneurialism, considering and pursuing novel ideas, and leadership for action. (Fullan, 2013)

This whitepaper provides a foundation for the global partnership's work. The document first provides an overview of the partnership's goals and the knowledge base that underlies its theory of action. Then it outlines the implementation framework for partners to mobilize for the achievement of deep learning goals.
